- Multiple Master of Education degrees in different subject areas (C&I, Ed Ad, School Counseling) may not be legal (US Department of Ed-financial aid). Instead of getting another Master's, some schools are giving a Certificate of Advanced Studies (state college system).
- Reporting completers (1 page summary from Pat Madsen)
- Two complete years of completer data vs. 3 cycles of data. Proposed change: Two complete years of completer data is encouraged for State folios; however, institutions seeking national accreditation may elect to submit folios consistent with CAEP requirements of three cycles of data for each of the required key assessments.
- C&I Master's are not required to have a folio
- Folios will still be required for programs for which there were more than five program completers within the past two years rather than the CAEP requirement of less than 10 completers in 3 cycles.
- Forms provided in the State Guidance are "recommended".
